

# THE U.S. TECH FOR CLIMATE ACTION CONFERENCE 2023

March 16, 2023 / Washington D.C.

Brought to you by

In partnership with

THE TECH FOR CLIMATE ACTION EVENT SERIES

# Overview

The U.S. Tech for Climate Action conference featured close to 200 delegates and a notably diverse forum of speakers. The conference successfully explored concepts, ideas, challenges and opportunities as to how the U.S. can advance ambitious programs by embracing innovation and technology led by a steadfast vision from multiple stakeholders across government, city, venture capital, industry and technology. Additionally, the conference recognized that there is a big global effort required and the U.S. is ready to be a leader using technology and innovation advancements to combat climate change.

The key focuses included:

- Future Networks and Enabling Technologies
- U.S. Climate Change Recovery
- Climate Action Leadership in Business and Government
- Funding the U.S. Climate Goals

Other - 13%

# What people said...

"In a single day, I felt like I absorbed so much knowledge, inspiration, and encouragement that will last me for many years to come. I know I will refer back to this event in my mind, time and time again throughout my career. The Tech for Climate Action Event Series hit it out of the park with this one."

**Analyst, Lux Research**

"It was a fantastic event! The organizers really did strike a balance by bringing the right group of people-Govt officials, private sectors, NGOs, and independent consultants from diverse areas. We look forward to the next one." **Global Sustainability Leader, O-I**

"The speakers, topics, and attendees made this an exceptional event." **CEO, AreaHub**

"I had a great time listening, learning, and seeing familiar faces as well as meeting new ones. I particularly enjoyed the range of topics covered and hope to attend again next year." **Government Relations, Schneider Electric**

"The conference convened an impressive group of experts for engaging discussions across public, private and policy sectors to move faster in the scale and use of technology for climate action." **Communications Manager, Cisco**

"The speakers were all extremely knowledgeable and the subject-matter discussed was very timely. The room was filled with experts all excited to keep up our collective momentum on climate impact, so I look forward to the next opportunity to continue the conversation." **Chief Sustainability Officer, City of San Diego**

"It was such a pleasure to be amidst so many dynamic leaders from the private and public sectors." **Author and Sustainability and Climate Advisor**

"Informative conference and a great opportunity to network." **Government Relations, Deloitte**

"It is great to hear about policy directly from the people writing, regulating and implementing them." **Co-Founder, Mizrahi Family Charitable Fund**

"The conference was inspiring, enlightening, energizing, encouraging, and galvanizing." **Director of Climate Experience, Pitney Bowes**

"The conference was a great opportunity to gather policy leaders and technology experts together to take stock of the situation, potential impacts and means of achieving lasting solutions for community and global resilience and mitigation." **Public Sector Director, Dassault Systèmes**
